RE: consistent stance about what we are communicating

- Still feel Commissioner of Remt + OPS not the case -
- controlling info within his own organization

- absolute disarray - long op in key positions - misprint reach in

- how much do we even know about what OPS is doing?

- who should be engaged in OPS - hard in hand

- someone of rank needs to be there per Commissioner @ mtgs to OPS

- what are we gonna do to OPS - ?

- so what happens if we get more asks ? then what ?

Solicitor-Client Priv.

Why want to see Army as late of emergency Act
is expectation that we use this to deliver - go full force

- Cabinet meeting will increase exponentially.
- Emergency Act " (not emergency measure or war measure)

package will be included to clarify in plain language and give us media lines

- Message will come out this ACT re: new measures

For Team

- all CO's to agree that this is going down
- Chp. 10:00 experience circumstances
- only applied to National, not all divisions
- OTC just sent out msg of experience circumstances but that didn't
- will be an "redubliated" schedule
- this isn't ideal.
- causing chaos + confusion
- where are minimum (maximum) hours, based on which schedule?
- deployed - claim against your home schedule.
- Dennis spoke to Mike + Mario
- have to seek volunteers first

- Rick - stayed as only "protector" then moved into ops support
- we're relying on OTC as to manage their abs
- agreed to manage on 6 day cycle with rotation
- MTH - biggest pain to draw from
- OPS support has now gone over to TFO
- 300 mbr days we are deploying

- OPS - state job (first 50 mbrs)
- any above 50 are dedicated to CRT teams
- Test to CAV complaints to re: redeployed schedule
- RTOS should have been given or paid
- Test saying deployed - they're feeling them
- keep them on their home schedule will fix this - claim against their home schedule
- keep them on their home schedule will fix this - claim against their home schedule
- RTOS need to recognize having CML's
- who don't know ops shouldn't be doing this
- as interpreting team policies that are operations will fail
- nothing that dictates us to employ 72 hr rule - it's basically given us ability to monetarily deploy
- now we have gone back to 10-12 hr shifts
- 6.03 CBA - re-assigned good faith + arbitrary
- get it organized - planned

{ 8 hour shifts for the (ATO) days } Cant put them on 1 for 4

- have to have minimum 2 days off between work blocks.

→ expect a clear days off when they go back

- Stephanie drafts with our LR letter - 210 (9) minimum 2 consecutive days at end of each week

- 16 on duty, 16 on nights - 58 CAV can go back
- if on 4 off now
- have had multiple things
- Sunday - sent from home
- took 3 hrs to get from deployed hold + some home
- they are picking this morning to find off/cancelled
- Full Tsg that can go to level 4
- they have 3 hrs till they need another team to take over
- if things in theatre here - 2 under rule observe (there are war / help to interfere when not active)
- fact drops right now - (a capacity same to EPT we have no contingency yesterday was good test - communication is broken - 8 hr deployment - C DIV - get rid of overlay of schedule - would cause a lot.
